Dr. Jeanmenne

Dr. Bellush

Dr. Senior

Thank you for choosing Nittany Dental. We look forward to meeting you. Our doctors have a combined 29 years of experience, seek continuing education constantly, and use the best technologies possible.

We encourage you to ask questions, speak with any of the staff members and build a long-term relationship with us. We strive for clinical excellence and believe our office will be all you expect from your dental care provider. We trust that you will feel confident in sharing us with your family and friends.

For your convenience, we have enclosed a medical history form for you to complete in the privacy of your home. Please also include a current list of your medications. Please bring this medical history and your medication list, if necessary, to your first visit.

If you plan to use dental insurance to aid in your treatment fees, please bring your insurance card, as this will allow us to process your claims properly and achieve the highest reimbursement for you.

Again, thank you for choosing Nittany Dental. We strive to make dentistry a positive experience.

*We are located in the
Bristol II building near the
corner of West College and
Bristol Avenue.*
